FINANCE OPTIONS

There are a wide variety of ways in which the purchase of a new car can be financed. Renault Finance offers all of them, so whether you're a fleet buyer or a private buyer, Renault Finance is ideally placed to tell you which plan or combination of plans best suits your needs and circumstances

ENGINES WITH OIL CONTROL SYSTEM (OCS)

- PETROL 1.2 TCe 100 & 115, 1.4 TCe 130, 2.0 TCe 180, 1.6 VVT 133, Renaultsport 133 & 250/265

OCS monitors driving conditions that directly affect the quality of your engine oil, protecting your engine from excessive wear and possible bearing failure. Under certain conditions; low speeds, heavy traffic, door-to-door deliveries (engine turning with little distance travelled) or in high gear for long periods; sport driving, towing a caravan/trailer over 500kg (engine turning at higher revolutions), the vehicle's service interval may be shortened and you will be alerted, via the instrument panel service indicator, that a Renault Service is required earlier (refer to Driver's Handbook for details).

WHY RENAULT?
WE'RE DRIVEN BY A PASSION TO MEET AND EXCEED PEOPLE'S NEEDS, AND THAT'S WHAT DRIVES THE INDUSTRY FORWARD. IT'S BEEN THAT WAY WITH US FOR OVER A HUNDRED YEARS. BUT IN TODAY'S RAPIDLY-CHANGING ENVIRONMENT, IT'S MORE IMPORTANT THAN EVER THAT WE SOURCE NEW SOLUTIONS THAT WILL SAFEGUARD ALL OUR FUTURES.

We know that the car is at a turning point, it has to evolve whether you believe in global warming or not; to emit less in cities, to make less noise and to use increasingly scarce energy more efficiently.

At Renault we are working to create more affordable cars, with radically lower CO_2 emissions. For the widest possible audience. Today that's our collection of 'eco²' models. Eco² indicates that the vehicle produces CO_2 emissions lower than 120 g/km, it includes at least 7% recycled plastic in its plastic mass, and has been designed in such a way that 95% of the materials used could have a second life (recyclable for other use or as a source of energy). In addition, eco² means that our factories are ISO 14001 certified.

Starting this year there will be a groundbreaking range of electric vehicles, from a nippy town car to a comfortable family saloon and a small van. They will be affordable to run – you will be able to drive up to 100 miles using a battery that costs typically £3 to charge, and a lot less using cheaper tariffs. And parking and congestion charges should all be lower too.

We believe it's time to make the car a driver of progress once more. We are determined to drive that change. Soon you will be able to join us.

RENAULT. DRIVE THE CHANGE.

RENAULT eco2

Clio RENAULT eco2 meets three criteria:

- it is manufactured in an ISO 14001 certified factory, minimising its environmental impact,
- the vehicle produces CO_2 emissions lower than 120 g/km,
- and it includes at least 7% recycled plastic in its plastic mass, and has been designed in such a way that 85% of the materials used could have a second life (recyclable for other use or as a source of energy).

With RENAULT eco2, Renault displays its environmental commitment at every stage of the vehicle's life.
